

Inauthentic Twitter accounts linked to Project Veritas.

Prepared by: Bot Sentinel Inc.

Date: 10/8/2021

Introduction: Project Veritas released a deceptive video created to malign Pfizer employees and the Pfizer COVID-19 vaccine. Shortly after Project Veritas released the video, inauthentic Twitter accounts helped amplify the video on Twitter. We have concluded with high confidence that we have identified 798 inauthentic Twitter accounts tied to the organization, and the accounts in question were part of a broader coordinated disinformation campaign.
